# What we know (or don't know...)

- Workplace harassment too often goes unreported.
  - Common responses: avoid harasser, deny/downplay the situation, attempt to ignore the behavior
  - Least common response: formal report
  - *Roughly three out of four individuals who experience harassment never talk to a supervisor, manager, or union rep.<sup>1</sup>*
- Harassment also takes place in experiential learning (internships, service learning).
  - *One in two post-secondary students have been subjected to at least one instance of sexual harassment in an experiential learning opportunity.<sup>2</sup>*
